

FEATURING A 52" WALL

THE CANYON

presented by:

the story...

Located in Baraga County, Michigan along the Sturgeon River flows the impressive and easy to visit Canyon Falls. Canyon Falls drops into a gorge that is quite interesting. The rock has broken along straight line faults, resulting in a very boxy canyon.

The Canyon Swimming Pool is aptly named because it also is truly impressive! It features an 8" resin top seat, two-toned resin uprights with unique interlocking two piece caps, and a color coordinated Gray Rock wall design. This pool is beautifully engineered, looks great and will provide a lifetime of maintenance free enjoyment for you and your family. Every Canyon Pool is produced in North America and features a Vinyl Works deluxe pool liner, also manufactured in North America.

THE CANYON
